

Creative Border Piecing

Joyce Walton

Learn how to machine piece an interesting, colorful quilt border with absolutely no fabric waste. This workshop is a technique class perfect for using your scraps and for a quilt, you may have started and are stuck on how to border it. This concept could also be incorporated in the body of a quilt and can be used over and over again for future projects.

Supply List:

- Sewing Machine with ¼" foot. Featherweights and other portables are fine. If your machine has an acrylic extender table, bring it. Also, an extension cord for your machine will be helpful.
- Neutral color thread for machine piecing.
- Scissors
- 6 ½" square ruler, plus a larger ruler for cutting additional fabric
- Rotary cutter and mat
- Optional (but helpful) a portable iron and ironing surface
- Bring assorted fabrics of your choice. You can use scraps or color coordinated fabric but be sure to bring lights, mediums and darks. We will be cutting 6 ½" x 3 ½" rectangles and 3 ½" squares from your fabric, so yardage is not necessary. If you have a quilt that needs a border, bring it as well as I'd be happy to advise you on the color scheme.
