

Fun with Feathers

Karen Kendo

This is a design and drawing class which will give longarm and domestic sewing machine quilters the opportunity to learn the motions necessary to quilt those designs. It's all in the muscle memory. While "hands on" longarm classes may be attractive, class size is limited to machines available. This drawing design format solves the problem while opening up the class to ALL machine quilters.

The class is 3 hours. **Materials fee is \$5.**

Feathers in quilting – everyone wants them. Learn to make the perfect feather shape and then learn how to have FUN with your feathers. Curling, whirling, hooked, lacy embellished, fancy spines, fat feathers, skinny feathers, funky feathers, formal feathers. Feathers for any and all occasions and all quilts.
