

New York Beauty the FOUNDATION-LESS WAY

Jane Godshall

New York Beauty blocks and curved piecing are often thought of as a bit intimidating. With my foundation-less paper piecing, those perfect points, arcs and spires are conquered, all without pulling off paper. Patterns are reusable. Pieces are reusable and accuracy is increased. This is a great technique to add to your toolbox. Kit fee \$43 (Acrylic templates, patterns, instructions)

Supply List:

Sewing machine and basic supplies, Rotary cutter, mat, ruler, IRON, Ironing surface, scissors

FABRIC:

The largest piece of fabric for class is approximately 10" x 10" for the largest template. An idea for class would be 8 fat eighths to give you a selection. Scraps are great. In class we will be working on the foundation-less technique. Please know you won't need that much fabric in the class and you can add to your design when you get home.

So let's have some fun!
