

## **The Supporting Cast** Karen Kendo

This is a design and drawing class which will give longarm and domestic sewing machine quilters the opportunity to learn the motions necessary to quilt those designs. It's all in the muscle memory. While "hands on" longarm classes may be attractive, class size is limited to machines available. This drawing design format solves the problem while opening up the class to ALL machine quilters.

The class is 3 hours. **Materials fee is \$5.**

Appliqués quilts are so very beautiful and the appliqué elements need to be the star of the quilt. But, a star is only as strong as the supporting cast around him or her. Background fills are essential tools to support the appliqué and make it shine like a star. In this class, you will learn at least nine background fills and how to combine them to add interest and texture to the backgrounds and appliqué.
