Class Description

This project creates the illusion of curves with a star in the center. In Christmas colors it resembles a Poinsettia. This Storm at Sea pattern is foundation pieced. The technique facilitates the creation of beautiful points even where the different angles meet.

This project is for all skill levels, confident beginner to advanced quilter. Students will learn the basics of foundation piecing plus tips and tricks for precise construction including pressing and squaring-up. Different color placement options, ideas to use trimmed scraps, and the alternative, “Foundation-less Paper Piecing” as taught by Jane Godshall will also be presented in an overview fashion.
